PROJECTS

- **Weather API -Real Time Weather Appplication**
Developed a dynamic weather application that fetches and displays real-time weather data. Implemented search functionality to allow users to check weather conditions for any city.
- **SuvishPortfolio-A Modern and Creative Name for a Unique Portfolio**
SuvishPortfolio is a personal portfolio website designed to showcase my skills, projects, and experience as a Full Stack Developer. The website serves as a professional online presence, highlighting my technical expertise, coding projects, and contact information in a visually appealing and interactive manner.
